## Warnings

**Question:** A.18 Total number of infants and toddlers who left the program any time after classes or home visits began and did not re-enroll

**Warning:** High turnover: The total number of infants and toddlers who left your program is larger than 1/2 of the total cumulative enrollment of children (163). Please explain in the comments if this is correct.

**Comment:** We had more kids stay post 36 m due to harder time transitioning to another program, and we had more that dropped due to COVID causing so much instability in the families.

## General Comments

During the pandemic, our 36m children sometimes stayed a few months longer because finding 3 year old services was much harder than usual. We also had a lot of families that struggled to participate due to COVID. Also a lot of families with babies under 12 m did not wish to enroll.
